5. Click en el recuadro **Terms of Use** and **Privacy Policy**, y opcionalmente en el acuerdo de marketing

6. Para completar el registro, click en **Create account**.

7. Click **Get started** y serás redireccionado a la plataforma (Dashboard).

8. Finalmente, agrega el **Access Code** que se encuentra en la tapa de tu libro.

A screenshot of a web-based application for adding products. At the top, there's a navigation bar with "Products" selected. Below it are buttons for "Add a Product +", "Filters", and a close button "X". A large input field is labeled "Add a product". Below this, a section titled "Enter an access code" contains instructions: "A product access code might come with your textbook, from your school, or in a separate kit. It looks similar to this: XXXXXX-XXXX-XXXX-XXXX-XXXX-XXXX-XXXX". An input field labeled "Access code" is highlighted with a purple border. Below the input field, there's a QR code with the text "Turn on camera to scan QR code" next to it. At the bottom is a large "ADD PRODUCT" button.
